DESCRIBE THE PRESENT AND ORIGINAL (IF KNOWN) PHYSICAL APPEARANCE

The building is three bays wide and three stories high. Fenestration is symmetrical throughout the 2nd and 3rd story brick facade walls. Foundation walls are stone.

The first story facade is a wood frame storefront with a central recessed entrance with a flat wood door. Two eight light flat store windows flank the entrance to either side. There is a flat wood door that punctuates the extreme left side of the facade.

The 2nd story facade is punctuated by three half arched windows of two over four lights, brick lintels, brick sills, and decorative wrought iron brackets.

The third story facade is punctuated by three double hung half arched windows of two lights with wood sills and brick lintels.

511 W. Lexington Street

The wood cornice is supported by four brackets that extend to extra molding. Three wood grilles decorate the facade between the cornice and extra molding. The roof is flat.

SPECIFIC DATES

BUILDER/ARCHITECT

STATEMENT OF SIGNIFICANCE

These two townhouses, dating from c. 1840, are surviving examples of the last phase of domestic Greek Revival Architecture. Historically and categorically they offer a good comparison to Davidge Hall of 1812, one of the building that signifies the beginning of the Greek Revival in the City. These two houses also indicate the enthusiasm shown by residents to prior to the Civil War in building elegant homes directly across from a teeming marketplace.
